

## 1. About Pacific

### **Pacific is world's first comprehensive payment system opening the way to global adoption of cryptocurrencies.**

A system built of 9 microsystems placed in a simple mobile application is dedicated mainly to developing countries, which, according to the International Monetary Fund data, were inhabited in 2017 by over 6.26 billion people i.e. 84% of

the world's population. In these countries, a POS terminal is rather an uncommon sight, and banking infrastructure is largely underdeveloped. Pacific aims at creating there a network of smartphone cryptocurrency payment terminals, providing developing countries with the freedom of digital settlements.

## 2. Project profits

Pacific Project's income is based on three main points:

- commissions on incoming transactions, paid by business clients
- commissions on all orders on the internal cryptocurrency exchange
- exchange of cryptocurrencies to local currency.

## 3. PCF Token

Pacific Token (PCF) is a hybrid token. It combines the functions of a utility and security token.

### **SECURITY**

7.15% of Pacific Project's income will be distributed monthly to tokenholders in Ether, in direct proportion to the number of tokens held.

### **UTILITY**

PCF token is used to cover transaction fees for business clients. Partner has the option of paying a lower commission when paid in the equivalent of value expressed in PCF tokens (1%), or a higher commission in other cryptocurrencies stored on their wallet (1.5%).

## 4. Legal

To ensure that our project is legally compliant and future operations run smoothly we cooperate with a world-class law firm, gaining distinctions in globally renowned rankings like Legal 500 and Chambers & Partners. Over 80 first-rate

lawyers and tax specialists are at our disposal, applying the highest standards of global compliance, due diligence and legal governance to everything we do – guaranteeing that your investment in our project is secure.

## 5. Token sale

Pacific public offer was qualified as the Virtual Financial Asset Offering (VFAO). Pacific Digital Ltd organizes the VFAO process to raise funds for the creation and commercialization of the Pacific System. The Token sale will start around

February 6 and will last until all tokens are sold out, but not longer than 2 months. The sales process is divided into bonus stages. The pool of each bonus is limited and you can check the bonuses in the table below:

	PRICE PER TOKEN (\$)	NUMBER OF TOKENS (MLN PCF)	BONUS	DURATION
STAGE 1	0,08	90	43%	2 weeks
STAGE 2	0,1	234	29%	2 weeks
STAGE 3	0,12	170	14%	2 weeks
STAGE 4	0,14	55	0%	2 weeks

## 6. Team

The Pacific team consists of people at the intersection of the financial and technological industries. We have gathered experienced managers from large technology corporations and banks, as well as former members of the government and people who participated in the creation of regulations for

the blockchain industry in Malta. Paired with an outstanding development team and previously mentioned legal team, it allows us to set the most ambitious targets for ourselves. You can read more about people making up the Pacific Project in our White Paper, as well as at [www.pacific.org](http://www.pacific.org).
